

An introduction to

See it. Say it. Change it.™

# The Vyouz Network

**THE** platform for positive social, economic and **environmental** change!

## About...

The Vyouz Network was built to help reduce the impact on the future of our planet.

The aim of the co-founder is to develop innovative, eco-friendly brands as genuine "tools for change".

Most of the concepts will directly address ways to Help protect the future of our planet.

How we will achieve this... just a few examples

Be fashionable.  
Be ethical.  
Be **Drop Dead Green.**

Fashion reuse the virtual way.

The last few years have seen an explosion of Eco green environmental websites with an unlimited amount of information, advice and help.

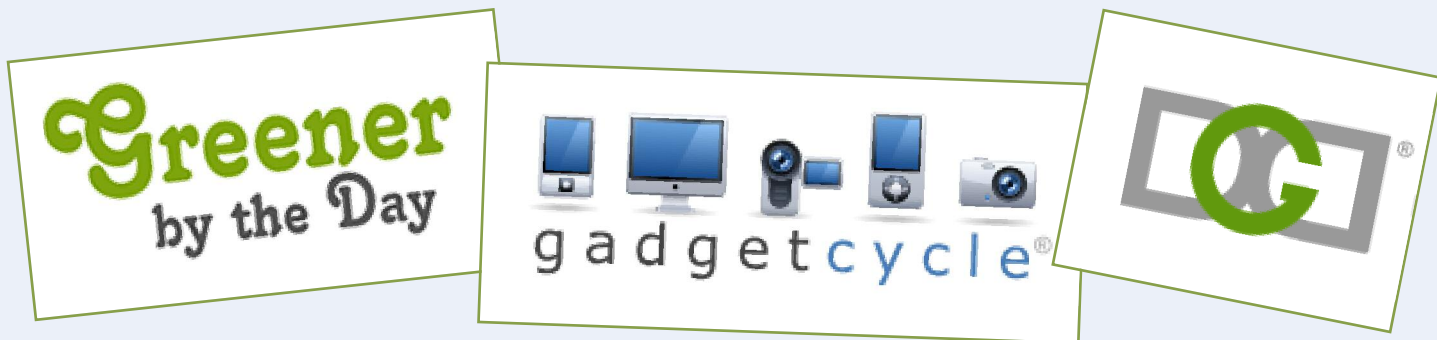

This is great at keeping you informed of what is, or is not happening around the world today.

**HOWEVER**, there is no **ONE** central source, which engages the user, provides the tools and encourages a shift towards a greener lifestyle.

# FREE sites of the Vyouz Network

Listening to our users has helped us produce practical websites that reduce an individual's impact on the environment and the burden on their pockets at the same time.

By combining free websites, funded by classified websites.

Examples:

- › Transport share schemes
- › Reuse and recycling sites
- › Fashion & accessories swap & exchange
- › Local produce exchanges
- › Moving home with less impact
- › Government JV's to enhance recycling
- › White labeling
- › Education partnerships

And so much more....

**Virtual DUMPSTERS**

Better than a bin.  
Toss it in!

Virtual Dumpster Diving.  
It's totally FREE!

**Virtual SKIPS**

Better than a bin.  
Chuck it in!

Virtual Skip Diving. It's  
totally FREE!

**sharemytransport**

**STUDENTCYCLE**

Our charitable arm

## Site features

All sites will have dedicated domains for the UK and USA.

A whole host of widgets and mobile phone apps will be available to help individuals and organizations improve reuse & recycling, reduce carbon footprints and CO2 emissions along with the associated websites.

Carbonfreetrading.com

## Branding

Total flexibility within our platform makes branding possible across all of our sites helping organizations including: Local government, The Scouting Network or even the largest Universities.

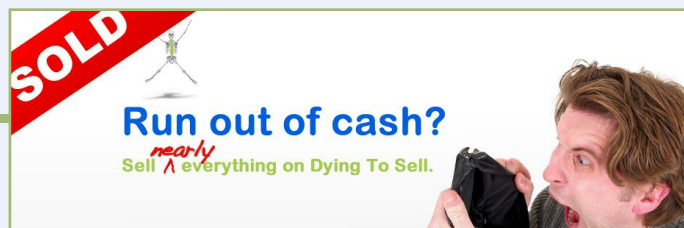

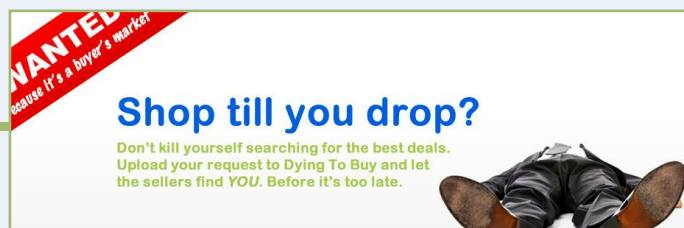

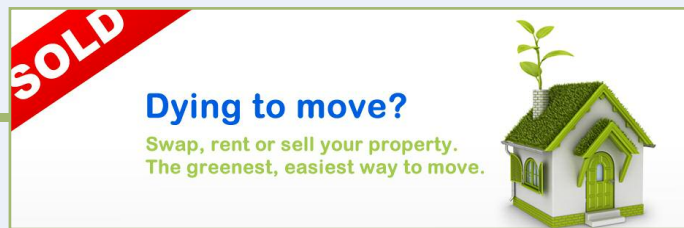

## Branding (continued)

These following brands will run independently and have been designed to compliment each other in styling and looks.

Funding from these sites will provide investment needed to help promote & market all of the free sites and support Givaid our charitable arm.

### Reducing the impact of moving

### So many ideas - so little time

Our incubator is full of ideas that may just work in helping us all to make a difference...

Watch this space there's more to come.

Contact details

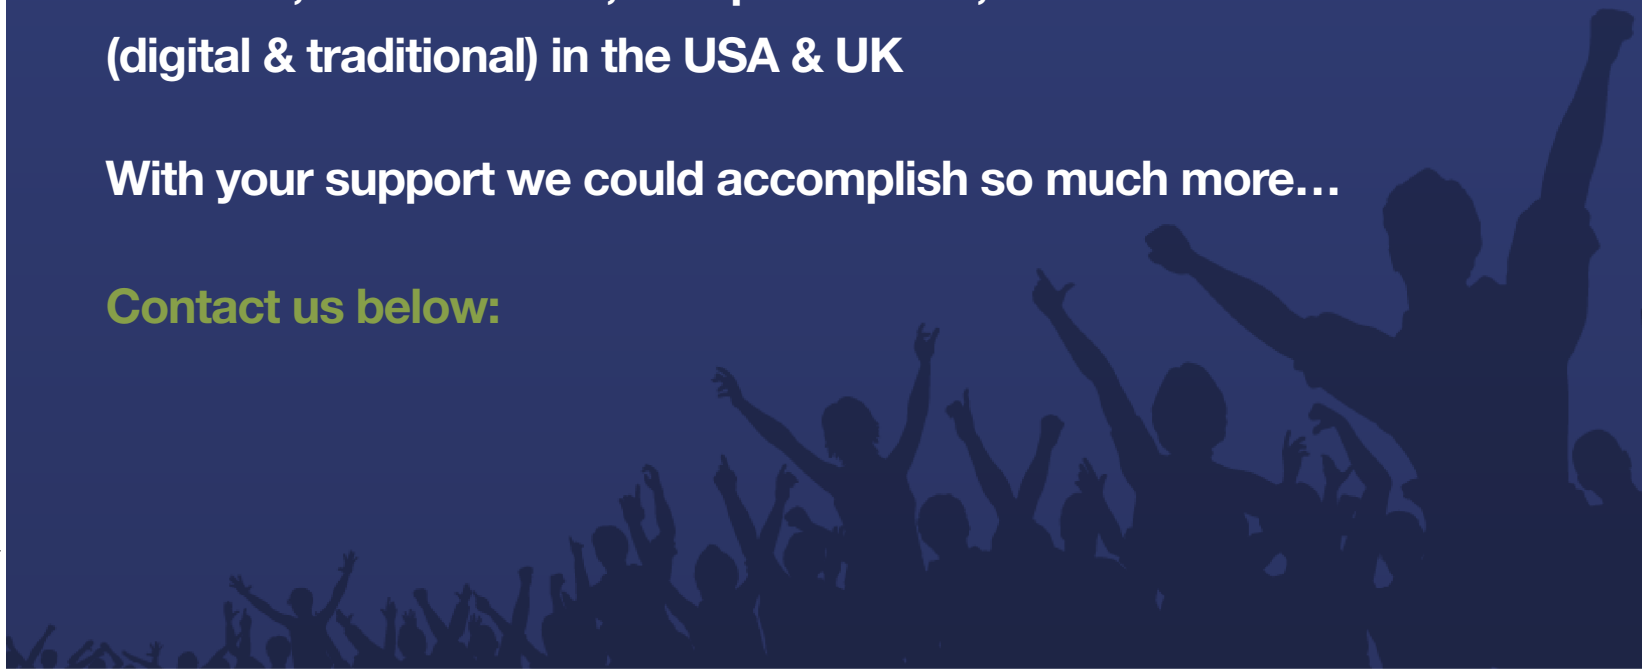

# Partner, collaborator, co-operative...

*The Vyouz Network is looking for:*

**Partners, collaborators, co-op initiatives, media  
(digital & traditional) in the USA & UK**
